EDUCATION

California State Polytechnic University, Pomona

Master of Science, Information Security | GPA: 4.0 / 4.0

Coursework: Web Application Security, IT Auditing, Cloud Infrastructure, Software Defined Networks

Aug 2025 – Expected May 2027

Pomona, CA

Mahatma Gandhi Institute of Technical Education & Research (MGITER)

Bachelor of Engineering, Computer Engineering | GPA: 8.0 / 10

Aug 2021 – May 2025

Navsari, Gujarat, India

SKILLS

Penetration Testing & Offense: Kali Linux, Metasploit, Burp Suite, Nmap, SQLmap, John the Ripper

Defensive & Monitoring: Splunk, Wireshark, tcpdump, NIST CSF, NIST SP 800-53, IDS/IPS

Compliance & Risk: Risk Management, Security Auditing, Security Controls, Vulnerability Management

Cloud & DevOps: AWS, Azure, Databricks, Docker, Kubernetes, Firebase, REST APIs, Git/GitHub

Programming & Scripting: Python, SQL, Java, C, Bash, PowerShell, Shell Scripting

Networking: TCP/IP, Firewalls, VPNs, Routers, Switches

Tools: Microsoft Office Suite, Excel, Power BI, Postman, Confluence, WordPress

EXPERIENCE

Network & IT Support Assistant

Jun 2023 – Dec 2024

MGITER – IT Department

Navsari, Gujarat, India

- Managed and monitored campus-wide network infrastructure of **10+ routers, switches, firewalls, and VPN gateways**, ensuring secure and reliable connectivity for **1,200+ students and faculty**
- Conducted packet capture and analysis with **Wireshark** to identify and mitigate security issues, improving network uptime by **20%** and reducing unauthorized login attempts by **15%** through VPN setup, firewall configuration, and access control management
- Documented recurring network issues and created troubleshooting guidelines for new student assistants

Cloud Computing Intern

Apr 2024 – Jun 2024

UniConverge Technologies Pvt Ltd (UCT)

Bangalore, India

- Applied **security-control knowledge** to ensure accurate data management and confidentiality across **AWS** and **Azure** environments, preventing errors and maintaining regulatory compliance
- Maintained compliance-aligned documentation in **Confluence**, reducing retrieval time by **30%**; provided Git and AWS support to resolve build and deployment issues

Data Analyst Intern

Oct 2023 – Dec 2023

Solar Secure Solutions

Bangalore, India

- Processed **35+ datasets**, entering confidential data into secure **AWS S3** buckets with **100% accuracy** and performing **SQL** queries to validate data integrity and compliance
- Presented data findings to stakeholders in plain language, helping the team make faster decisions and reducing back-and-forth clarification requests

ACADEMIC PROJECTS

Physical Security Audit – Student Data Center | NIST SP 800-53, Audit Reporting, Risk Analysis

Cal Poly Pomona

- Conducted a physical and operational security audit of a student-run data center, evaluating **access controls**, environmental safeguards, backup resilience, and change management
- Mapped findings to **NIST SP 800-53 Rev. 5**, identified **5 audit exceptions**, and produced a formal audit report with risk-based recommendations including DR testing and AD/NAS separation

AI Regulatory Compliance – Cloud Provider GRC Study | NIST AI RMF, EU AI Act, CCPA, AWS, Azure, GCP

Cal Poly Pomona

- Developed an **8-category AI GRC framework** mapping requirements from **NIST AI RMF**, **EU AI Act**, and **CCPA ADMT** to evaluate regulatory compliance capabilities across AWS, Azure, and GCP
- Identified **Microsoft Azure** as the overall leader in compliance tooling integration; produced a formal research paper with provider-specific recommendations presented to faculty

Stock Monitor – Real-Time DevOps & SDN Application | FastAPI, Docker, Redis, GitHub Actions

Cal Poly Pomona

- Built a containerized real-time stock monitoring system using **FastAPI**, **Redis**, and **Docker** with a full **CI/CD pipeline** (GitHub Actions)
- Integrated threshold-based alerting via **WebEx Bot** and Redis caching, applying **secure API design** principles and scalable cloud-native architecture

LEADERSHIP

Webmaster, Board Member

May 2026 – Present

FAST – Forensics & Security Technology Club, Cal Poly Pomona

Pomona, CA

- Manage and maintain **cppfast.org** on **WordPress**, enforcing **Information Security best practices** – access control, security patching, and regular backups; resolved a **3-year stale events calendar**, incorrect board listings, and missing member conversion flows

CERTIFICATIONS

AWS Certified Cloud Practitioner (Apr 2026) | **IBM Cybersecurity Analyst Specialization** | **Google Cybersecurity Specialization** | Digital Forensics, Incident Response & Cloud Security (TryHackMe) | 100 Days of Code – Python (Udemy) | IELTS: Band 7.0
